- JavaScript
- Git
- Responsive UI
- SEO Basics

## STRENGTHS

- Clean architecture
- Business-first thinking
- Fast learner
- Clear communication
- Detail-oriented UI

# TANISHA CHANDRAKANT NALAWADE

## Java Full Stack Developer | Freelance Web Developer

Business-focused Java Full Stack Developer creating premium responsive websites, REST-ready backend foundations, and polished user interfaces for real client projects.

## PROFILE

I build websites and web applications that help clients look professional, explain their services clearly, and capture enquiries. My work combines responsive frontend implementation with Java backend fundamentals and practical database knowledge.

## FEATURED PROJECT EXPERIENCE

### Premium Freelancer Portfolio Website

Designed and developed a multi-page Ocean Mist themed portfolio with lead capture, enquiry validation, project filtering, responsive sections, SEO tags, downloadable documents, and polished UI animations.

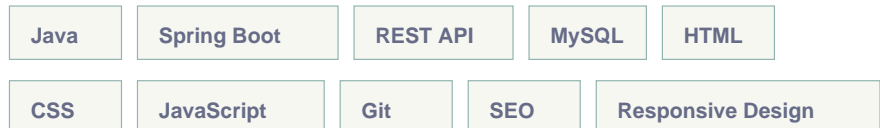

### Business Website & Landing Page Concepts

Created conversion-focused layouts for service businesses with trust indicators, CTA systems, service previews, process sections, testimonials, and mobile-first structure.

### Java Backend / API Dashboard Concept

Planned REST API and dashboard-style interfaces with Java, Spring Boot patterns, MySQL-ready data thinking, and clean module separation.

## TECHNICAL SKILLS

## EDUCATION & TRAINING

Add degree, college, university, year, score, Java/web development training, certifications, and internship details here.
